

We are so excited to launch our “School Fuel” program in partnership with local coffee shops for our hard working teacher residents. Let’s face it, teachers run on coffee. Teachers fuel our schools so we’ve got to fuel our teachers. In an effort to support local small businesses and fuel our teachers with delicious coffee, select shops will be offering teacher discounts to Teacher Props residents.

How it works:

All School Fuel locations will provide teacher discounts to those who fill up in the Teacher Props tumbler you are receiving. The tumbler is your ticket for the discounts at each location (EarthShake, Koba Cafe, Culture Cup Cafe, Charmington’s, Dooby’s). We have launched at six amazing cafes with plans to have at least one School Fuel destination in each of our featured neighborhoods. The discounts are unique to each shop, check out the deals at each location on the next page.

We are so excited about this program and we hope you are too! Please tag us on social media enjoying a School Fuel coffee in your new tumbler!

Thank you for all that you do!
